**Circuit Court Disposes of Many Cases—Liquor Violators Get Stiff Sentences**

The Madison Circuit Court in session Monday failed to reach a verdict in the case of Commonwealth vs. Milton Hall. It will be remembered that young Hall was alleged to have taken the automobile belonging to Nicholas Harber.

Other cases disposed of by Judge Shackelford's court Monday were Ben Trent, for carrying concealed weapons, not guilty; Commonwealth vs. John Webb for unlawful sale of liquor, bond forfeited and jury reached verdict giving him fine of \$225 and 50 days in jail. An attachment was ordered by the court served on the prosecuting witness, Price Tuor, for contempt of court and he was fined \$10 and costs. Commonwealth vs. James Warner, charged with shooting on public highway, fined \$50 and 10 days in jail. However, the court granted new trial and the commonwealth agreed to accept the \$50 fine. Babe Nelson, colored, was taxed 12 months in jail for grand larceny. Joe Lambert, charged with unlawful sale of liquor, not guilty. A. C. Daniels, Mrs. Jennie Devore and Virgil Sweat were all fined \$5 and costs for suffering livestock to run at large on highway. William Lambert got the stiff sentence of \$300 and 60 days for violation of the prohibition laws. On another count, he was found not guilty. The case of Granville Kelly for carnally knowing a female under 16 years of age was continued until Tuesday, awaiting final taking of testimony.

### Disastrous Fire At Irvine

The loss was estimated at approximately \$8,000.

## COAL SHORTAGE HELD UNLIKELY

Washington, Oct. 11.—There is very little danger of an acute coal shortage this winter.

Temporary fuel shortages will probably develop in many districts when those who wait until the last minute to buy coal throw too heavy a strain on the railroads. That happens every winter.

Northwestern states are in most danger of local shortages.

Bituminous coal output has been climbing since August 6. It now averages about 8,500,000 tons a week, or about 2,000,000 tons a week more than last year.

How much coal has been mined this year? The Geological Survey's latest figures show that output from January 1 to September 25, 1921, is behind previous years, as follows:

1920.....	100,000,000 tons
1919.....	50,000,000 tons
1918.....	145,000,000 tons
1917.....	114,000,000 tons
1916.....	30,000,000 tons

This looks as if there is certain to be a shortage. But the low coal production is counteracted by lower consumption of coal by industries during depression.

## MARSH HENRY SENDS REGRETS TO U. C. V.

Chattanooga, Tenn., Oct. 11.—Colonel Henry Watterson, veteran journalist, former editor of the Louisville Courier Journal, and during the Civil War publisher of the Chattanooga Rebel, has written a characteristic letter to the committee in charge of the forthcoming reunion of the United Confederate Veterans to be conducted here, in which he expressed regret at not being able to attend.

The letter, written from New York and addressed to the chairman of the committee, follows: "I wish it were possible for me to attend the coming Confederate reunion. It is not possible, so you must take the will for the deed."

"Chattanooga possesses many claims upon my affections. It was there that I found my dear wife, who after 50 years of devotion, still abides, and between whom and myself the relations then established remain unbroken and unchanged. She joins me in the regret that we cannot revisit together the scenes of our early love-making. But at four-score and upward, functions of every sort are beyond me."

"Perhaps it is as well that I may not again look upon the thin gray lines, soon to disappear forever from the scenes of this world, for it might put too great a strain upon an old man's tenderest sensibilities. It cannot be long when we shall meet on that beautiful shore, and when we meet be sure the Bonnie Blue Flag will be flying at the fore and the bands will be playing 'Dixie' on parade, whilst pretty girls will be distributing of Chattanooga Rebel to groups of ragged red-nosed angels, who have not forgotten the rebel yell."

## EDUCATION ESSENTIAL TO PROHIBITION

**So States World President in an Address Before the State W. C. T. U. at Danville**

(By Associated Press) Danville, Ky., Oct. 11.—Continuation of the educational program of the Woman's Christian Temperance Union is necessary if the prohibition law is to do any good, as it is intended, Anna Adams Gordon, of Evanston, Illinois, acting world president of the organization, and national president of the organization in the United States, declared in an address before the annual meeting of the Kentucky Woman's Christian Temperance Union. The law cannot be expected to enforce itself, she said.

"Prohibition victories bring responsibilities well-nigh overpowering in the weight of their importance to the community, the nation and the world," she said. "A prohibition victory places in the hands of law-abiding citizens a weapon that only through constant, vigorous use can be kept brightly burnished. We do not expect a trolley car to make much progress unless it runs on a well-laid track and is supplied from a central battery with electric power. Neither can we expect a prohibition law to enforce itself. The law must run on the well-laid track of an educated public sentiment and the power that propels it must come from an electric battery of fearless law-enforcing officials. Alas, that any community should be lulled into apathy and indifference by the act that open saloons do not legally exist in their midst. Woe to the locality where a prohibitory law administers moral chloroform instead of proving a tonic to civic, rural and spiritual activities."

A sacred obligation rests upon us to continue and greatly enlarge our educational program. We have assumed the responsibility of a hundred-fold extension of our national and international activities. As voting citizens, enfranchised under the Nineteenth Amendment, that emancipated twenty-six million women, we must rally to the stirring call of the Eighteenth Amendment. It has in its far-sounding bugle note the same mighty thrill that inspired the early crusaders, when forty-seven years ago, a crusade state awakened our entire nation. Today our crusade nation must awaken the entire world.

"Today the United States is a vast unified laboratory where the findings and declarations of eminent European and American scientists and sociologists concerning the dangers of alcoholic drinks and the benefits of prohibition are being successfully tested. All the world is looking on and will judge prohibition by the brand that is labelled 'Made in America.' Today to enlighten the family of nations, we must help hold aloft the brightly burning torch of a well enforced, successful prohibitory law. We must still crusade. We must still dare. We must 'carry on.' The liquor traffic is an outlaw and in every large and small community and from this day forward in every commonwealth shall be treated as an outlaw. The heights of national constitution prohibition have been gained; they must be triumphantly held. The minute man of the old colonial day said 'Trust God and Keep Your Powder Dry.' The minute women of the new prohibition day must say 'Trust in God and Keep Your Country Dry.'"

## MAY ASK M'DOUGLE TO ANSWER COLVIN

**When He Speaks In Favor of Amendment Here—Normal Faculty Endorses Them**

Hon. J. A. Sullivan is advertising Hon. George Colvin, State Superintendent of Public Instruction, who is making a vigorous fight for the two proposed educational amendments to be voted on the coming election, to speak here Saturday with Dr. M. B. Adams, president of Georgetown College, in the interest of the two amendments. As there is a good deal of sentiment in this section in opposition to these amendments, it has been suggested that some one here, probably Dr. E. C. McDougle, reply to Supt. Colvin on the question. Lilburn Phelps will meet Mr. Colvin in debate at Jamestown, on the 17th. Mr. Phelps, who has an ambition to represent the 11th district in Congress, is making a hard fight in opposition to these amendments.

The first official action by the faculty of the Eastern Kentucky State Normal School regarding the two school amendments, which are before the voters of Kentucky in the November election, was recorded at a recent meeting. A majority of the members went on record endorsing both amendments. Of the 35 teachers, all endorsed favorable resolutions, with the exception of four who requested that they be counted present but not voting.

At the last term, however, the student body, by a large majority, expressed their opposition to the amendments.

## REDUCTION IN FREIGHT RATES

**Conference Seeks Relief For Unemployed To Stimulate Business**

(By Associated Press) Washington, Oct. 11.—Readjustment and reduction of railroad freight rates constituted one of a number of recommendations presented today to the National Unemployment Conference for bringing about a permanent betterment of the nation's commerce and industry with consequent relief for unemployment.

Other resolutions recommended a speedy enactment of tax legislation with its contemplated reduction of levies in order that business may be promptly relieved; an immediate determination of a course by Congress with respect to tariff legislation, to enable business to decide upon future conduct and policies; a settlement of the government's financial relationship with the railroads, having in mind the immediate necessity for increases, betterments and making effective increased railway employment and a stimulation of general employment; the limitation of world armament and consequent increased tranquility; minimizing the fluctuations in exchange; definite programs which will lead to more regular employment, notably in the coal industry; a readjustment of buying power in the different elements of communities to more relative plans.

Resolutions also were understood to present the view of disproportion which exists between the price of primary commodities and the ultimate retail price.

### HERE ARE MISPLACED LETTER WINNERS

The Misspelled Word contest for trade day went over big. Hundreds of replies were received, and while the management of the Daily Register would have liked to have awarded each individual for the many hours of hard work they devoted in reading over the advs. in which to secure the mis-placed letters, it was found by the four representative business men who acted as judges in the contest, that only six answers were correct.

Promptly at 12:30 o'clock Saturday afternoon the four business men came to the editor's private office, and went through the tedious work of looking over the replies compiled by the rule of the contest. Finally their decision was reached, and the names of the winners in the contest announced. The following decision in the contest was reached by the committee:

Richmond Daily Register, Richmond, Ky. Gentlemen: We, the undersigned committee acting as judges to the winners in the \$50 in gold, offered by your paper as prizes in the merchants' contest, beg to submit the following report:

1st Prize—Frank Powell.

We state it as our honest belief that the tobaccos used in Chesterfield are of finer quality (and hence of better taste) than in any other cigarette at the price.

#### The School Amendments

A contributor to the Louisville Post answers mighty well a lot of arguments that paper has been making in favor of the school amendments to be voted on by the people in November. What he says is worth reading, especially to those who are not convinced that the adoption of these amendments will benefit in the slightest the school system of Kentucky. He says:

Since you have manifested a willingness to allow some discussion of the constitutional amendments in your columns, and being

an old subscriber and intensely interested in the success of one, and the defeat of the other, I would like to ask a few questions.

We subscribers have gathered many ideas from reading the Evening Post, and now it seems at you have reversed yourself upon something you convinced us of years ago.

In the first place, is there a single concrete proposition offered to the people of Kentucky in lieu of surrendering our constitutional right to elect the State Superintendent? Have even as much as a platform promised? If we have I have never read it and if you know of any please print the program.

Are you willing, as a great daily paper, to urge your subscribers to commit themselves to

a doctrine like this, "We don't know where we are going, but we are on the road?" Now, truly, is not that a lot of stock to take in the uncertainties of politics to surrender your rights to someone you know not whom, to administer the schools of Kentucky in a way you know not how? Surely this is a departure not only from the principles of democracy but from the well-known principles of the Evening Post. Do you believe the Governor's assertion that it will take the schools out of politics? Why many of us people down here in Meade county feel sorry for people who don't think the schools are in politics now, we are going to vote on the subject this fall.

Don't you believe the governor has already thrown the schools into the mire of the spoils system by announcing whom he would appoint should the legislature empower him to do so? Has he not gotten very generous all at once, and what for unless it is for the purpose to gain votes for the amendment? Suppose you say as you no doubt will, that this is open and legitimate barter. Then I ask, Will not the next governor use his appointments for his political advancement? One more

question: Is there any real representative of the common schools on the board named by the governor or are they all high school and college representatives who don't have much respect for the common schools? And should not the common schools have as many as five on the board of nine?

The Evening Post seems to be in favor of government by boards and here is where we farmers are surprised. When Christ appointed the twelve you remember Judas turned up and though he was in a very small minority succeeded in betraying the Savior. Was not the joint high commission made to see that Tilden did not get to be president? Yes, boards are the rottenest things in the world. But you say in an editorial of September 26, "The people will control the schools, must control the schools and they will control them the more effectively because they hold the small group that appoints the State Superintendent responsible for the work of that officer." Now, if you really believe this is true, I just want to ask one question. Why don't you people of Louisville control your Board of Public Safety and quit making confessions that you have one of the three most rotten police systems in the United States? Respectfully, E. B. Ashcraft.

#### Hun Humorists Help Solve Tax Problems

Berlin, Oct. 11—The government's search for new sources of revenue to meet increasing expenditures has brought a group of humorists to the rescue, one branch of which, submitting a statute already prepared suggests a tax on fat folks whose waistline circumference exceeds the chest measurement. Another suggests attention be paid double elms and "whisky noses." The proponents of the fat tax include the following provision in the statute they have submitted: Males between the ages of 15

and 30 whose waist exceeds chest circumference shall pay marks yearly for each excess centimeter, between 30 and 40 years 500 marks.

## The First Signs of WINTER

**ADVANCE  
SHOWING OF  
STYLE-CRAFT  
TAILOR-MADES**

The first crocus of spring beauty announces that spring and summer are on their way, but fall and winter are more wary. They creep upon us almost before we are aware that summer has gone.

But look in the shop windows, visit our suit or coat department and you will know that winter has announced itself.

And what does the woman read in these signs?—that many delightful new styles have been created for her. She will discover here that suit coats have grown markedly longer since spring; that as never before every type of figure has been taken care of.

For are there not semi-fitting coats, straight line unbelted box coats, belted coats, strictly tailored styles that most become the larger woman, fur trimmed suits with uneven hem lines for the slender young girl?

And if she really believes in signs she'll look inside the coat collar and discover the words STLYE-CRAFT-made—a sign that here is real quality, fine tailoring combined with choice fabrics and skilled designing. No need to question the value and service in such garments. You can be absolutely sure of it.

## The First Signs of WINTER

**ADVANCE  
SHOWING OF  
STYLE-CRAFT  
TAILOR-MADES**

The first crocus of spring beauty announces that spring and summer are on their way, but fall and winter are more wary. They creep upon us almost before we are aware that summer has gone.

But look in the shop windows, visit our suit or coat department and you will know that winter has announced itself.

And what does the woman read in these signs?—that many delightful new styles have been created for her. She will discover here that suit coats have grown markedly longer since spring; that as never before every type of figure has been taken care of.

For are there not semi-fitting coats, straight line unbelled box coats, belted coats, strictly tailored styles that most become the larger woman, fur trimmed suits with uneven hem lines for the slender young girl?

And if she really believes in signs she'll look inside the coat collar and discover the words STYLE-CRAFT-made—a sign that here is real quality, fine tailoring combined with choice fabrics and skilled designing. No need to question the value and service in such garments. You can be absolutely sure of it.

Chamberlain's Tablets have restored to health and happiness hundreds who were afflicted with indigestion, biliousness and constipation. If you are troubled in this way give them a trial. You are certain to be pleased for they will benefit you.

President McBryde, of the Kentucky Good Roads Association, says a bonded debt of \$50,000,000 for good roads is necessary and that the state can retire it in 30 years.

### DON'T PUT UP YOUR OLD STOVES!

About the worst job man ever tackled is putting up a stove. And about the worst drudgery woman ever endured is messing with coal, kindling, and ashes, and cleaning up after two or three stoves all winter.

But why worry with stoves? Why put up with the inconvenience? Why endure the dirt? Why risk health with a "face-burning, back-freezing" method of heating? Why continue trying to heat your home with stoves that waste 75 per cent of the fuel you put into them? You can have more heat—with 1-3 to 1-2 less expense—with the modern

#### Women May Wear Trousers

(By Associated Press)

Seattle, Wash., Oct. 11—While the wearing by women of masculine shirts and trousers "may be perhaps subject to some criticism from an artistic or aesthetic standpoint, it cannot be said that it is prohibited by the law," Attorney General L. L. Thompson has advised W. H. Hillyer, town marshal of Zillah, Wash. Marshal Hillyer consulted every authority in his pursuit of means to curb the wearing of men's attire by women in his town. Secretary of State J. Grant Hinkle to whom the question was put, passed the problem up to E. L. French, director of agriculture, on the ground that the women wearing men's apparel were engaged in agricultural work. Mr. French was unable to offer a solution and the matter passed on to Mr. Thompson.

#### BOBTOWN

Rev. E. L. Cornett filled his regular appointment Saturday and Sunday at Pilot Knob church. He was entertained in the home of Mr. Jim Neely.

Mrs. Julia Creekmore spent a few days with her daughter, Mrs. Mat Baker, at Big Hill. Mr. and Mrs. Baker are the proud parents of a fine baby boy.

Mr. and Mrs. R. L. Brown, of Berea, spent Sunday with Mrs. John Lawson.

The teacher, Mrs. M. A. Moody, gave a nice little entertainment Friday evening. Several of the parents attended and some visitors. Prof. Dix, Mr. Robert Spence, Miss English, of Berea. Some very interesting talks were made. All enjoyed the evening very much.

Mrs. Nettie Cole and daughter, Maude, spent Thursday with Mrs. Ike Davis, near Silver Creek.

Agnes Lawson spent the weekend with Miss Ersie Laws.

Mr. Charley Smith and family spent Sunday with Mr. L. L. Begley and family.

The death of Mrs. Zach Neely came to us as a shock. We feel the loss of a good neighbor, one who was always ready to help in a time of need. She was a good worker in church and Sunday school but we feel God's will was done, and our loss was Heaven's gain. We extend our deepest sympathy to the bereaved husband and three children. May God help them that they may walk in her steps and remember her prayers.

THE POTTER Shoe Company, Cincinnati, Ohio, will display the advanced modes in both footwear and hosiery at the Glynndon Hotel on Wednesday, October 12th. We believe an inspection of our line this season will be of mutual interest. Mr. E. L. Franken will be in charge.

### HAS RAISED A NEW STANDARD FOR BAKING POWDER

Because it's made in the most careful and scientific manner from absolutely pure materials that remain pure in the baking and insure wholesome, healthful food.

Because it possesses the greatest leavening power.

Because it is not affected by time or weather—it never loses its strength and never fails.

Because it is more economical—you save when you buy it and you save when you use it.

These are a few of the reasons why Calumet is the standard baking powder—the choice of millions—more being sold than of any other brand.

Try it—always buy it. Your grocer can supply you.

A pound can of Calumet contains full 16 oz. Some baking powders come in 12 oz. cans instead of 16 oz. cans. Be sure you get a pound when you want it.

#### MOTHER! CLEAN CHILD'S BOWELS WITH CALIFORNIA FIG SYRUP

Even a sick child loves the "fruity" taste of "California Fig Syrup." If the little tongue is coated, or if your child is listless, feverish, full of cold, or has colic, give a teaspoonful to cleanse the liver and bowels. In a few hours you can see for yourself how thoroughly it works all the constipation poison, sour bile and waste out of the bowels, and you have a well, playful, child again.

Millions of mothers keep "California Fig Syrup" handy. They know a teaspoonful today saves a sick child tomorrow. Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages, printed on bottle. Mother! You must say "California" or you may get an imitation fig syrup.

### HOW WOMEN OF MIDDLE AGE

May Escape the Dreaded Sufferings of that Period by Taking Mrs. Block's Advice

Hopkins, Minn.—"During Change of Life I had hot flashes and suffered for two years. I saw Lydia E. Pinkham's Vegetable Compound advertised in the paper and got good results from taking it. I recommend your medicine to my friends and you may publish this fact as a testimonial."—Mrs. ROBERT BLOCK, Box 512, Hopkins, Minn.

It has been said that not one woman in a thousand passes this perfectly natural change without experiencing a train of very annoying and sometimes painful symptoms. Those dreadful hot flashes, sinking spells, spots before the eyes, dizzy spells, nervousness, are only a few of the symptoms. Every woman at this age should profit by Mrs. Block's experience and try Lydia E. Pinkham's Vegetable Compound.

If you have the slightest doubt that Lydia E. Pinkham's Vegetable Compound will help you, write to Lydia E. Pinkham Medicine Co., Lynn, Mass., about your health. Your letter will be opened, read and answered by a woman, and held in strict confidence.

Virginia Lady Suffered With Aches and Pains Until Mother Regan Giving Her Cardui.

Dublin, Va.—Miss Mary Alice Huggett residing on Route 2, near here, recently told a visitor of her interesting experience with Cardui. Miss Huggett said: "I had been suffering for some time with painful... I was pale, didn't feel like going. Would just drag around, and couldn't rest to do any good. I would suffer once a month with my back, sides and head. My limbs would ache and I didn't know what to do, but I knew I must do something, for I didn't get well by letting it run on."

"My mother is a believer in Cardui, for she saw what it did for others as well as herself, so she began giving it to me."

"It wasn't long before I saw a change. It was just what I needed. It regulated me. I began to eat and sleep, and the pain stopped."

"Cardui is without doubt the best female tonic made, and I am glad I can recommend it to others."

If suffering with symptoms such as Miss Huggett mentions, or other ailments peculiar to women, why not begin Cardui at once? Its merit is well established by successful use for more than 40 years.
